MINUTES
North Dakota State Water Commission
Meeting Held in State Office Building
Bismarck, North Dakota
October 29, 1973

The North Dakota State Water Commission held a meeting in the Fred J. Fredrickson Memorial Library, State Office Building, Bismarck, North Dakota, on Monday, October 29, 1973. Governor-Chairman, Arthur A. Link, called the session to order at 10:35 a.m.

PRESENT:
Governor Arthur A. Link, Chairman
Richard Gallagher, Vice Chairman, Mandan
Alvin Kramer, Member from Minot
Gordon Gray, Member from Valley City
Donald Noteboom, Member from McKenzie County
Arne Dahl, Commissioner, Department of Agriculture, Bismarck
Vernon Fahy, Secretary and State Engineer, North Dakota State Water Commission, Bismarck

OTHERS PRESENT:
Matt Emerson, Assistant Secretary, North Dakota State Water Commission, Bismarck
Cliff Jochim, Director of Legal Division, North Dakota State Water Commission, Bismarck
Delton Schulz, Director of Engineering, North Dakota State Water Commission, Bismarck
Eugene Krenz, Director of Planning, North Dakota State Water Commission, Bismarck
Russell Dushinske, Executive Vice President, North Dakota Water Users Association, Minot
Murray Sagsveen, Legislative Assistant, Governor's Office, Bismarck
Floyd Fischer, Upper Mississippi River Basin Commission, Fargo
Joseph R. Maichel, Attorney, Montana-Dakota Utilities Company, Bismarck
Mark Scarff, Vice President, Montana-Dakota Utilities Company, Bismarck
Lloyd Hillier, Minnkota Power Cooperative, Grand Forks
Gus Bougie, Minnkota Power Cooperative, Center
Ken Ziegler, Basin Electric, Bismarck
Dave Bartel, Associated Press, Bismarck
Dewey Heggen, KFYR Radio-TV Station, Bismarck

Approximately 30 additional persons attended the water permit hearing on United Power Association-Cooperative Power Association.

MINUTES OF SEPTEMBER 27, 1973

It was moved by Commissioner Gray, seconded by Commissioner Noteboom and carried, that reading of the minutes of the September 27, 1973 meeting be dispensed with and be approved as circulated.
FINANCIAL STATEMENT FOR
MONTH OF SEPTEMBER, 1973

Matt Emerson, Assistant Secretary for the State Water Commission, presented the financial statement for the month of September, 1973. He briefly reviewed the status of the Water Commission accounts, noting that the Commission payroll as shown is for the month of August. He also stated that there are several projects to which Commission funds have been previously committed and the project has not becomes a reality to date, some dating back to 1965. It is the feeling of the State Engineer and other staff members that these projects should be reviewed by the Commission members and that some of these commitments may be withdrawn to allow for future commitments.

It was moved by Commissioner Kramer, seconded by Commissioner Gallagher and carried, that the Commission accept the financial statement for the month of September, 1973, as presented.

REQUEST BY CASS COUNTY DRAIN BOARD FOR FINANCIAL ASSISTANCE IN CONSTRUCTION OF CASS COUNTY DRAIN NO. 53 (#1594)

Secretary Fahy indicated that a request has been received from the Cass County Drain Board for cost participation in the construction of a 3.14-mile drainage project in a problem area between l-29 and US 81 and between the Wild Rice channel south of the area and Rose Coulee to the north of the area in Sections 35 and 36, Township 139 North, Range 49 West, and Sections 2 and 11, Township 138 North, Range 49 West. The total qualified construction items cost is estimated to be $16,237, and the state share is estimated to be $6,495. It was Secretary Fahy's recommendation that the Water Commission participate with the Cass County Drain Board in the construction of Cass County Drain No. 53 to the extent of 40 percent of the estimated qualified construction items cost, in an amount not to exceed $6,495.

It was moved by Commissioner Gray, seconded by Commissioner Kramer and carried, that the State Water Commission participate with the Cass County Drain Board in the construction of Cass County Drain No. 53 to the extent of 40 percent of the estimated qualified construction items cost, in an amount not to exceed $6,495.

MINNKOTA POWER COOPERATIVE, INC. WATER PERMIT REQUEST

Secretary Fahy stated that at the hearing held on September 27, 1973, on water permit Nos. 1963 and 1964 for Minnkota Power Cooperative, the Commission had granted approval to increase the height of the dam at Nelson Lake approximately ten feet. This approval did not constitute authority for increasing the existing maximum pool level. Their request is for 5,000 acre-feet additional storage behind the dam and to appropriate 2,480 acre-feet annually from Square Butte Creek; and for the appropriation of 26,000 acre-feet from
the Missouri River to supplement the water supply to Nelson Lake and the Milton R. Young Power Plant.

After a brief discussion, it was moved by Commissioner Gallagher, seconded by Commissioner Gray and carried, that the Commission defer action on the request of Minnkota Power Cooperative until the hearing has been completed on the United Power Association-Cooperative Power Association water permit request to be held this date.

DISCUSSION OF FUNDING OF SOURIS-RED-RAINY PROJECT (#305)

Secretary Fahy noted that the Commission members had been forwarded copies of an opinion of the Attorney General pertaining to funding of the Souris-Red-Rainy project. He briefly discussed the background history of the Souris-Red-Rainy River Basins Commission, which had been terminated on June 30, 1973, and on September 7, 1973, was incorporated with the existing Upper Mississippi River Basin Commission, with a regional office now in Fargo.

The 1973 Legislature allowed an appropriation of $60,000 for state participation in the Souris-Red-Rainy project if federal funds continue for the program, but that the funds shall not be expended if federal funds are not available. Governor Link, in his request for an Attorney General's Opinion, noted the fact that although the Souris-Red-Rainy River Basins Commission has been terminated, the Souris-Red-Rainy project has not been terminated; therefore, is continued funding of the Souris-Red-Rainy project under the Upper Mississippi River Basin Commission a sufficient condition precedent to authorize the expending of any or all of the $60,000 appropriation for Souris-Red-Rainy project purposes?

Governor-Chairman Link indicated that he did receive the Attorney General's Opinion and he was very pleased that his Opinion stated that the Souris-Red-Rainy project still exists within the framework of the Upper Mississippi River Basin Commission and that continued federal funding of the Souris-Red-Rainy project under such Commission is a sufficient condition precedent to authorize the expending of any or all of the $60,000 appropriation for such purpose as contained in Chapter 15 of the 1973 Session Laws of North Dakota.

It was requested by Governor-Chairman Link that the Water Commission adopt a Resolution whereby an expenditure be approved for the balance of the biennium, November 1, 1973 through July 1, 1975, to continue the Souris-Red-Rainy project.

Floyd Fischer, Staff Manager of the Upper Mississippi River Basin Commission in Fargo, informed Commission members that the next phase of the Souris-Red-Rainy project for the biennium is the
public information phase, getting the public to receive this information on water resources planning. He also gave a breakdown of operational costs for the balance of the biennium.

Eugene Krenz, Planning Director for the State Water Commission, was requested by the Commission members to discuss his views and recommendations on the continued progress of the Souris-Red-Rainy project, and he also briefly discussed the work of the Souris-Red-Rainy River Basins Commission before termination.

It was moved by Commissioner Gray, seconded by Commissioner Noteboom and carried, that the Commission adopt Resolution No. 73-10-355, Funding of the Upper Mississippi River Basin Commission Regional Office, and that an expenditure of not to exceed $15,000 for the period November 1, 1973 through July 1, 1975 be approved, providing that these funds shall be expended only for the state's agreed upon share of operating costs including the payment of the travel expenses of the chairman of the Advisory Committee and the alternate to the official representative of the state on the Upper Mississippi River Basin Commission. (See Appendix 'A')

REQUEST FOR WATER PERMIT
FROM MONTANA-DAKOTA UTILITIES COMPANY

Secretary Fahy indicated that a request from the Montana-Dakota Utilities Company, Bismarck, North Dakota, for a water permit to divert 47,628 acre-feet of water for storage and 22,500 acre-feet of water for annual use from Brush Creek, the Knife River, and South Coyote Creek has been received in the office of the State Water Commission.

Messrs Joseph R. Maichel, Attorney representing Montana-Dakota Utilities Company, and Mark Scarff, Vice President of Montana-Dakota Utilities Company, presented preliminary statements to the Commissioner members on the application request, noting that the request for a water permit was for three proposed 400-megawatt electric plants in Mercer County.

Secretary Fahy stated that a public hearing on the application would have to be held and he also requested Montana-Dakota Utilities Company to present a formal, written statement of their testimony to the Commission for review prior to the date set for the hearing.

After discussion by the Commission members and the Montana-Dakota Utilities Company's representatives, it was the consensus of the Commission to delay setting a date for the public hearing until after the hearing on the United Power Association-Cooperative Power Association water permit request.
REQUEST FOR APPROVAL OF
CONVEYANCE OF BURLEIGH
AND MCLEAN COUNTIES BANK
STABILIZATION EASEMENTS
(#576)

Secretary Fahy presented a Resolution to
the Commission members for their consider-
eration relative to bank stabilization
works in Burleigh and McLean Counties.
He indicated that the Water Commission
has acquired easements from the Burleigh
and McLean County Water Management Districts. Adoption of this Resolution
will give the U.S. Army Corps of Engineers the right and permission to enter
onto these lands for the construction of the river-bank protection work in
these two counties.

It was moved by Commissioner Kramer, seconded
by Commissioner Gray and carried, that the
State Water Commission adopt Resolution No.
73-11-354, Conveyance of Burleigh and McLean
Counties Bank Stabilization Easements,
giving the U.S. Army Corps of Engineers
the right and permission to enter onto these
lands for the purpose of construction of the
river-bank protection work in Burleigh and
McLean Counties. (See Appendix "B")

WATER PERMITS

Secretary Fahy presented 14 water permit
requests to the Commission members for
their consideration. He recommended that water permit No. 1953, McLean County
Land Company, Minot; and No. 1961, D.C. Willoughby, Ruso, be deferred at
this time pending further investigations. The hearing on permit No. 1977,
United Power Association-Cooperative Power Association, Elk River, Minnesota,
will be heard on this date, and will be considered by the Commission after
completion of the hearing. It was his recommendation that the other water
permit applications be approved subject to conditions stated on the conditional
permit.

It was moved by Commissioner Gallagher,
seconded by Commissioner Gray and carried,
that the Water Commission approve the
following water permit application requests
subject to conditions stated on the condi-
tional permit: No. 1965, Kenneth L. Renz,
Moffit; No. 1909, Donald Egeland, Rhame;
No. 1948, Gerald German, Guelph; No. 1957,
Harry Gustafson, Halliday; No. 1702,
Harry Meiklejohn, Dickey; No. 1949,
Homer Nesson, Douglas; No. 1976, North
Dakota Farm Systems, Valley City; No. 1954,
Traill County Rural Water Users, Inc.,
Hillsboro; and Nos. 1970, 1973, and 1979,
William Stegner, Rhame. Water permit No.
1953, McLean County Land Company, Minot;
and No. 1961, D.C. Willoughby, Ruso, are
to be deferred at this time pending further investigations. Consideration will be given
the United Power Association-Cooperative
Power Association, No. 1977, water permit
request following the hearing to be held
this date. (See Appendix "C")

The Commission recessed at 12:05 p.m.,
and at 2:20 p.m. reconvened in the Vocational Education Conference Room to
attend the public hearing of United Power Association-Cooperative Power
Association's request for a water permit, No. 1977. A complete transcription
of the hearing will be available at a later date.

MINNKOTA POWER COOPERATIVE, INC. Following completion of the United
WATER PERMIT APPLICATION Power Association-Cooperative Power
DISCUSSION Association's public hearing, Governor-
relative to water permit application Nos. 1963 and 1964 requested by the
Chairman Link called for discussion
Minnkota Power Cooperative. Mr. Lloyd Hillier, representing Minnkota Power,
made a presentation regarding the appropriator's needs and plans for future
power production and he answered questions of Commission members. The
discussion that followed centered around the request by the Commission to
reserve some portion of electric power for the State of North Dakota.

Secretary Fahy read the alternatives
previously discussed by the Commission members, relative to taking final
action on the two permits. The two main alternatives were the approval of
the permits as requested or the approval of the Square Butte Creek Permit
No. 1963 as requested and the approval of the Missouri River No. 1964 for
7,500 acre-feet only, both alternatives having a list of conditions.
Governor-Chairman Link recommended the approval of 7,480 acre-feet from
Square Butte Creek in Permit No. 1963 and 7,500 acre-feet from the Missouri
River in Permit No. 1964, with certain conditions attached as had been
formulated by Commission members. It was noted that the recommended approval
was for the year 1977, target date for Minnkota plant Phase No. 3 and that
this conditional permit would not preclude, under a new request or application,
the future consideration of water from the Missouri River for Minnkota Power
plant Phases No. 3 and 4, which would carry target dates of years 1978 and
beyond.

At this point in the meeting, Governor-
Chairman Link asked Secretary Fahy to read the recommended approval and Secretary
Fahy responded as follows:

Minnkota Power Cooperative, Inc.
Grand Forks, North Dakota

SWC Water Permit No. 1963

That a conditional permit to store 5,000 acre-feet and to appropriate 2,480
acre-feet annually from Square Butte Creek under application No. 1963 be
approved subject to prior water permits and the conditions applicable to
application No. 1964, and provided further that a stream gaging station or
other satisfactory measuring device be installed upstream to provide information
essential to the development of agreements with the water management district
for the satisfactory operation of the dam to minimize downstream flooding.

***********

Minnkota Power Cooperative, Inc.
Grand Forks, North Dakota

SWC Water Permit No. 1964

That a conditional permit to appropriate 7,500 acre-feet of water annually
from the Missouri River under application No. 1964 be approved for use in
Minnkota Power Cooperative's power generation Plant Expansion No. 2 subject
to prior water permits and the following conditions:

1) The conditional permit will be effective for a five-year period;

2) A perfected permit will be issued when the unit is completed
and only for the amount of water actually applied to beneficial
use within the time period herein specified;

3) If, at any time, the North Dakota State Water Commission or
any authorized agency should provide for the payment of a
water users fee, or any other fee, the applicant shall be
subject to the payment of such fee when it becomes effective.
Fees so charged shall exceed costs;

4) That the most advanced engineering and technological methods
shall be employed in the design of any proposed plant, and
in any improvement or addition thereto, to minimize evaporation
and to eliminate other wasteful uses of water. Such methods
shall be subject to State Water Commission approval;

5) No assignment, transfer, or sale of any part of the water to
which the applicant is entitled shall, at any time, be made
without prior State Water Commission written approval of all
points of diversion, utilization and discharge;

6) Failure to comply with any order of the State Engineer or the
State Water Commission may result in forfeiture of water permit;

7) Applicant shall furnish and install metering devices to record
actual amounts of water used if so directed by the State
Engineer;

8) The applicant shall install, maintain and operate continuous
emission and fuel monitoring instruments;
9) The applicant shall require his coal suppliers to accomplish total reclamation of the lands mined or disturbed while furnishing coal for plant operation and shall make water available at a reasonable cost to the coal supplier in the event that the reclamation agency requires the application of supplemental water to aid new plant growth on lands to be reclaimed in the total reclamation process; and

10) Applicant shall be subject to existing rules and regulations and also to those which may be promulgated by the North Dakota State Water Commission or other appropriate agency.

* * * * * * * * * * * * * * * * * * *

Mr. Hillier, when requested to respond to the conditions recommended for the permits, indicated Minnkota Power Cooperative could readily comply with the conditions.

Commissioner Gray discussed the possible addition to the recommendations of some language to recognize the appropriator's need and intent to develop Phase No. 3 and 4 of their electric power plant complex.

It was moved by Commissioner Kramer, seconded by Commissioner Noteboom and carried, that Minnkota Power Cooperative, Inc., No. 1963, be approved with the conditions as recommended.

It was recommended by Commissioner Gray, seconded by Commissioner Kramer and carried, that Minnkota Power Cooperative, Inc., No. 1964, be approved with the conditions as recommended.

Further discussion followed regarding the applicant's request to appropriate water for plant Phases No. 3 and 4. Governor-Chairman Link stated that recognition is shown for Minnkota's future needs by the fact that the present permit approval, although limited does not preclude the filing of an additional application.

Commissioner Gallagher requested that discussions be initiated between Commission staff members and officials of the Minnkota, United and Cooperative Power Association relative to some preferential treatment to North Dakota in the allocation of electric power production. The Cooperative's representatives responded favorably. It was decided that an initial contact would be made at the time of the next Commission meeting in Jamestown, on or about December 5, 1973, when Mr. Andrew Freeman of Minnkota Power would be available.
At this time, Commissioner Gallagher enlarged upon several points which resulted in the motion that adopted condition No. 10 under permit No. 1964, the need for supplemental water in the total reclamation process.

Governor-Chairman Link and other Commissioners expressed agreement that future Commission meetings be held over a two-day period and that Commission members should submit agenda items for discussion. The next meeting was scheduled, as noted earlier in the minutes, on or about December 5, 1973, in Jamestown. The meeting date would coincide with the annual meeting of the North Dakota Water Users Association and the North Dakota Water Management Districts Association.

The scheduling of a public hearing for a water permit application by Montana-Dakota Utilities Company was delayed until the December meeting. The hearing date would then probably be set for sometime in January, 1974.

It was moved by Commissioner Kramer, seconded by Commissioner Gallagher that the meeting be adjourned. The motion carried and the meeting adjourned at 6:30 p.m.

Vernon Fahy, Secretary

ATTEST:

Arthur A. Link, Governor-Chairman
RESOLUTION 73-10-355
Funding of Upper Mississippi River Basin Commission Regional Office for Continuation of Souris-Red-Rainy Project

BE IT RESOLVED that the North Dakota State Water Commission at its meeting held this 29th day of October, 1973, in Bismarck, North Dakota, approve the expenditure of not to exceed $15,000 for the period November 1, 1973 through July 1, 1975 for the State's participation in the operation of the Upper Mississippi River Basin Commission for continuation of the Souris-Red-Rainy Project. It is provided further that these funds shall be expended only for the State's agreed upon share of operating costs including the payment of the travel expenses of the Chairman of the Advisory Committee and the Alternate to the official representative of the State on the Upper Mississippi River Basin Commission.

FOR THE NORTH DAKOTA STATE WATER COMMISSION:

Arthur A. Link
Governor-Chairman

ATTEST:

Vernon Fahy
Secretary
WHEREAS, the United States Army Corps of Engineers has submitted to the
North Dakota State Water Commission plans and specifications for bank stabilization
on the banks of the Missouri River in Burleigh County and McLean County, North
Dakota, and made formal request for rights-of-way as contained in drawings numbered
MGOC1-2E2 October, 1972, MGOC8-2E2, MGOC4-2E2 November, 1972, and MGOC2-2E3
December, 1972; and

WHEREAS, the North Dakota State Water Commission has approved and adopted
said plans and specifications and has acquired from Burleigh County Water Management
District and the McLean County Water Management District, the easements for the
construction of the river-bank protection project as set forth in drawings numbered MGOC1-2E2 October, 1972, MGOC8-2E2, MGOC4-2E2 November, 1972, and
MGOC2-2E3 December, 1972.

NOW, THEREFORE, BE IT RESOLVED by the North Dakota State Water Commission
that it does hereby grant, give and convey to the United States Government, its
contractors and agents, the right and permission to enter in and upon said lands
for the purpose of construction of the river-bank protection project, as indicated
on the rights-of-way maps designated as drawings numbered MGOC1-2E2 October, 1972,
MGOC8-2E2, MGOC4-2E2 November, 1972, and MGOC2-2E3 December, 1972, prepared by
the U. S. Army Corps of Engineers and approved by said North Dakota State Water
Commission.

Dated this 29th day of October, 1973.

NORTH DAKOTA STATE WATER COMMISSION
By: Vernow Joly
Secretary and Chief Engineer

Director of Legal Services
CERTIFICATE OF ATTORNEY

The North Dakota State Water Commission is a legally constituted State Agency organized and existing under the laws of the State of North Dakota and has authority to acquire, own and control the lands for rights-of-way and easements involved in this matter.

I, the undersigned Director of Legal Services for the North Dakota State Water Commission, certify that the lands required for rights-of-way and for easements for the construction of the river-bank protection project MG0C1-2E2, October, 1972, MG0C8-2E2, MG0C4-2E2, November 1972, and MG0C2-2E3, December, 1972, Missouri River, as indicated on the plans and specifications and rights-of-way prepared and submitted by the Corps of Engineers, United States Army, Omaha District, have been acquired by grants and conveyances to the Burleigh County Water Management District and the McLean County Water Management District. I further certify that the Burleigh County Water Management District and the McLean County Water Management District have, by resolution, granted to the North Dakota State Water Commission, its assigns, contractors and agents the right to enter in and upon such land for the purpose of construction and maintaining the river-bank protection project referred to above.

It is my opinion, after examining such easements and resolution, that the North Dakota State Water Commission has lawful authority to grant to the United States the right and permission to enter upon said lands for the purpose of river-bank protection project as contained in the plans and specifications of the U. S. Army Corps of Engineers and that nothing has been done to affect the status of said lands since the dates of acquisition of said lands.

IN WITNESS WHEREOF, I have made and executed this Certificate this 29th day of October, 1973.

Cliff Jochim, Director of Legal Services
