NEED TO KNOW?
The NDCMP is a 24/7 project for 92 days, or longer, and ongoing communications are vital. However, we understand our interns need to leave the project early to return to school. You determine your last day of work on the project.

Each intern is assigned a Supervisor/Mentor who offers guidance, inside information, encouragement and general counsel. An “always-available” policy gives you access to individuals at any time day or night for answers to questions, to accept feedback, and help with project objectives.

GETTING STARTED?
Be sure to sign up for AtSc 252 Applied Weather Modification (spring) class.

If you have questions, please contact Kelli Schroeder with the ND Atmospheric Resource Board at 701-328-2789 or kjschroe@nd.gov.

For more information about the North Dakota Cloud Modification Project, direct your web browser to www.dwr.nd.gov/arb/ndcmp.
