

# WONDERS OF WETLANDS WORKSHOP

**MARCH 26, 2022 | KATHRYN, ND**

Join us in Kathryn, ND for an opportunity to experience current wetland management and water resource issues. While exploring the issues and identifying solutions, participants will receive real world, user friendly, and classroom ready instruction from specially trained Project WET facilitators.

Participants can transfer the workshop's studies to practical classroom applications, and experience hands-on, minds-on learning through a balance of presentations, discussions, activities, and investigations.

Who Can Come? This workshop is open to teachers, resource personnel, homeschoolers, or anyone interested in learning how to teach about wetlands and water quality.

Prairie Waters Education & Research Center  
11810 51st Street SE  
Kathryn ND 58049

**Register Online**
